|---|----|---|-------------------|
| <b>Purpose and procedure</b> .....  | 34 | Adenotonsillectomy marginally reduced sore throat episodes compared with watchful waiting in children.....                                    | 52                |
| <b>EBM notebook</b>   |    |   |                   |
| Jottings .....  | 35 | Etidronate, calcium, or both did not reduce fracture rates in patients with asthma receiving glucocorticoid treatment.....                    | 53                |
| Practice corner .....   | 36 |   |                   |
| Evidently .....   | 39 | <b>Diagnosis</b>  |                   |
| <b>Therapeutics</b>   |    | Review: important bedside predictors are patient's description of chest pain for CAD and electrocardiography for MI.....                      | 54                |
| Review: home or self blood pressure monitoring improves clinic blood pressure in essential hypertension                           | 40 | Computed tomographic colonography without cathartic preparation performed well in detecting colorectal polyps.....                            | 55                |
| Review: thrombolytic treatment does not reduce the risk of recurrent pulmonary embolism and death more than heparin .....         | 41 | <b>Aetiology</b>  |                   |
| Review: $\beta$ blockers reduce mortality and therapy withdrawal in heart failure but increase dizziness and bradycardia .....    | 42 | Anticoagulant plus antiplatelet treatment increased the risk of bleeding in atrial fibrillation .....   | 56                |
| Atorvastatin reduced major cardiovascular disease events in type 2 diabetes mellitus .....  | 43 | Haemoglobin A <sub>1c</sub> concentrations were associated with increased cardiovascular disease and all cause mortality.....                 | 57                |
| Isosorbide dinitrate plus hydralazine was effective for advanced heart failure in black patients .....                            | 44 | <b>Quality improvement</b>  |                   |
| Review: antidepressants increase clinical response and remission in bipolar depression without increasing induction of mania..... | 45 | Written prompts to GPs to elicit patient concerns led to a small increase in 1 measure of patient satisfaction in self limiting illness ..... | 58                |
| Fluoxetine plus cognitive behavioural therapy was most effective for adolescents with major depressive disorder                   | 46 | <b>Economics</b>  |                   |
| Antenatal infection screening reduced preterm delivery  | 47 | Rate control was more cost effective than rhythm control in persistent atrial fibrillation .....  | 59                |
| Prophylactic use of LMWH plus intermittent pneumatic compression prevented DVT in hip or knee arthroplasty                        | 48 | <b>Resource review</b> .....  | 60                |
| Review: antiplatelet agents (particularly aspirin) reduce the incidence of pre-eclampsia in women at risk .....                   | 49 | <b>Letter</b> .....   | 61                |
| Review: oestrogen improves symptoms of overactive bladder in postmenopausal women.....  | 50 | <b>Additional articles abstracted in ACP Journal Club</b> .....   | 62                |
| A multifaceted, home based, environmental intervention modestly reduced asthma morbidity in children with atopic asthma .....     | 51 | <b>Other articles noted</b> .....   | 63                |
|   |    | <b>Glossary</b> .....   | Inside back cover |
