Evidence-Bos Medicine

for Primary Care and Internal M

Editors: Brian Haynes & Paul Glaszica

Contents Purpose and procedure EBM notebook Jottings... An emerging consensus on grading recommendations? Teaching tip: the invisible hand of randomisation Evidently... 3rd International Conference of Evidence-Based Health Care Teachers & Developers **Therapeutics** Review: some evidence shows that self help books based on cognitive behaviour therapy can relieve depression in some patients Review: limited evidence from 2 randomised controlled trials suggests that oral and intramuscular vitamin B₁₂ have similar effectiveness for vitamin B₁₂ deficiency Low dose aspirin did not prevent cancer in healthy women Vitamin E did not prevent cardiovascular disease and cancer in healthy women Review: viscosupplementation for knee osteoarthritis reduces pain and improves function

Review: vitamin D plus calcium, but not vitamin D alone, prevents

Adjunctive treatment with eplerenone reduced 30 day all cause

Review: angiotensin converting enzyme inhibitors and angiotensin

Pulmonary vein isolation was better than antiarrhythmic drugs for

The Bug Buster kit was better than single dose pediculicides for

Topical chloramphenicol was not effective in children with acute

osteoporotic fractures in older people

mortality in acute myocardial infarction

receptor blockers prevent atrial fibrillation

symptomatic atrial fibrillation

infective conjunctivitis
