Nurse-led cognitive behaviour therapy improved insight and reduced negative symptoms and readmissions in schizophrenia Periodic telephone counselling for polypharmacy improved compliance and reduced mortality Review: opiate administration may alter physical examination findings but does not increase management errors in acute abdominal pain	21 22 23
Diagnosis Review: tissue transglutaminase test is almost as accurate as endomysial antibody test for diagnosis of coeliac disease Review: history and physical examination can accurately identify migraine and the need for neuroimaging in patients with headache	24 25
Aetiology Fetal exposure to ACE inhibitors increased risk of major congenital nalformations	26
Quality improvement Review: 3 of 4 RCTs on the treatment of adolescent depression in primary care have positive results	27
Economics B type natriuretic peptide testing was more cost effective than conventional diagnosis in patients with acute dyspnoea	28
Resource review	29
