Contents

EBM opinion and debate

- 201** Redefining rapid reviews: a flexible framework for restricted systematic reviews
 EDITOR'S CHOICE
- 204** A word about evidence: 'rapid reviews' or 'restricted reviews'?

Original EBM research

General medicine

- 206** Developing tools to enhance the use of systematic reviews for clinical care in health systems

Research methods and reporting

General medicine

- 210** When to include clinical study reports and regulatory documents in systematic reviews
 EDITOR'S CHOICE

EBM analysis

General medicine

- 218** Research integrity and the law that never was

Mental health

- 225** What is the threshold for a clinical minimally important drug effect?

Journal club

General medicine

- 228** Iron absorption from oral iron supplements given on consecutive versus alternate days in iron-depleted women

December 2018 Volume 23 Issue 6

Commentaries

General medicine

- 230** Edoxaban is non-inferior to low-molecular-weight heparin for treating cancer-associated venous thromboembolism
- 231** Hormone therapy should not be prescribed for primary prevention of chronic medical conditions in asymptomatic postmenopausal women

Primary care

- 233** Trimethoprim is associated with a greater risk of acute kidney injury and hyperkalaemia in older adults compared with other antibiotics used to treat UTIs
 OPEN ACCESS

- 235** Deprescribing cardiovascular drugs in low-risk patients increases the risk of uncontrolled blood pressure and LDL-cholesterol

Surgery

- 237** Frailty and frailty-related factors are associated with postoperative complications in older patients undergoing elective surgery

Letters

- 239** Effect size in CASTLE-AF trial: the issue of 'the tiny effect'
 OPEN ACCESS

- 240** Letter to the editor re: Assessing the validity of surrogate endpoints in the context of a controversy about the measurement of effectiveness of hepatitis C virus treatment
